Hot potatoes tutorial:

How to embed a video in hp and publish your activity to the web

Everybody should have Hot Potatoes as well as Miro installed on their computer at this point. If you need help with that or if you would like to borrow an ALTEC laptop for the rest of the semester, let me know ASAP!

PART ONE: EMBED A VIDEO IN HOT POTATOES

We've done this together last week but we'll go a step further by publishing this activity to the web and connecting it to your course.

To be able to complete this activity you need:

- Hot Potatoes installed on our computer
- An internet connection
- 1. Create a folder on your desktop:
- Right-click on your desktop and choose New > Folder
- Name your folder (I will name mine activity)

2. Open Hot Potatoes (Start> program> Hot Potatoes) and choose Jquiz:

3. Save it in the folder you created earlier: File> Save as> activity

🖲 Save As			-	×
Save in:	Desktop		• ← 🛍 f	*
Name	Size	Туре	Date modified	*
F	ctivity ile Folder niroscreenshot ile Folder	s		E
File name:	exercise-1			Save
Save as type:	JQuiz files (*.j	qz)	_	Cancel Help

4. Create a couple questions on the video you are planning on using and don't forget to mention which answer(s) is correct.

JQuiz: C:\Use	rs\Edwige\Desktop\exercise-1	Ljqz				
	rt Manage Questions Opt					
12 🗠 🖬 🖁	₩ 🗇 💥 🕴 🗠 %	he Wid	🎬 🐘 🤁 🔅			
Title		Ex	ercise one: a video			
Q 1 This news program talks about(check all that apply)						
▲ ▼	Answers		Feedback	Settings		
A wolf pro	tection in Italy	*		Accept as correct		
				← 0 🔶 % correct		
skiing o B	ontest	<u>~</u>		▲ Accept as correct		
		-		- 100 🚖 % correct		
the pop	e			▲ 🔽 Accept as correct		
		-		100		
	ia as a disease	<u> </u>		▲ Accept as correct		
D		-		← 0 🚔 % correct		
			Config: english6.cfg			

5. To create another question:

6. Now, let's embed the video:

- Add the following html code after the title of your activity:

The only reason we add the
 code is so that the title of the exercise appears *on top* of the video and not next to it, this is just for the sake of visual appeal but still necessary...

- Now open a new Internet window and go to youtube: <u>http://youtube.com</u>
- Find a video that you like or could use for an activity
- Copy the embedding code (NOT the URL)

- Go back to you Hot Potatoes activity

- Paste the code right after the $\langle br \rangle$ in the title of the exercise in Hot Potatoes.

ž 🖉 🎊 😘 🥵 🥐	
Exercise one: a video	Copy the code right there!
all that apply)	

It will look like this:

🛅 🖉 🎆 😘 🦻 🦿	
height="344"> <th>:t></th>	:t>
eck all that apply)	·

- 7. Convert the file to html:
- Click on the little cobweb (or go to File> Create webpage)

- Save the page in your desktop folder
- Preview the exercise in a browser to check that it works:

View or upload the exercise	
The following file(s) have been created:	
C:\Users\Edwige\Desktop\activity\exercise-1.htm	
What would you like to do?	
₽ View the exercise in my browser	
Upload the file to the hotpotatoes.net Website	
× Nothing	
? Help	
	J

- Close your webpage.

PART TWO: PUBLISH IT TO THE WEB

Every student on campus has access to an online file management system called webfiles. Your webfiles account has a www folder that allows you to publish documents to the web.

1. Go to <u>http://webfiles.colorado.edu</u> and login using your identikey and e-mail password.

2. Click the www folder:

Up	Search Web Folder		ectory Upload	Move Copy	Delete Rename [ownload Email
Directo	ory: / simone 🛈 🖆	" <u>∜</u> ⊔ � +				
	▼ Name	Edi	t Info	Lock	Shar	e Delete
	🔞 trash		i	ſ) ×
	www	$\mathbf{>}$	i	ſ) ×
Choos	se all <u>Clear all</u>					

3. Change the permission for your www folder to make your file public (if you don't, users will be prompted to enter a login to view the activity).

When the following window appears, make these two selections (circled in red):

		🟠 🔻	a - 🖶 - D	• Page 🔻 🍈 Tools 🔻
pup Remove User/Group Inheritable Permissions				
s on: /simone/www (directory)				🗘 Back
Permit these selected Users and Groups to:	Read	Write	Delete	Administer
vige F. Simon)	4			1
accounts				
Apply changed settings to sub-direct Apply changed settings to sub-direct Verwrite all permissions on all sub- Only apply to this directory Apply Now Cancel				

- 4. Upload your activity to the www folder:
- Click upload
- Browse to your htm file (NOT the jquiz file!) and select it:

Choose file	in the conternation	and generalized				x
G v k activity				arch	6	٩
🌗 Organize 👻 🎬 Views	; 👻 📑 New	Folder				0
Favorite Links	Name	Date modified	Туре	Size	Tags	
📃 Desktop	exercise-1					
🕮 Recent Places	는 exercise-1

P Searches						
J Public						
Folders ^						
File name	:		•	All Files (*.*)		-
				Open	Cancel	

You can close webfiles.

5. Where is my activity?

Your activity URL will be as follow:

http://webfiles.colorado.edu/username/www/nameofyourfile.htm

For example, you can view my activity at:

http://webfiles.colorado.edu/simone/www/exercise-1.htm

Assignment: Send me the link to your activity!!
